Beskrivelse

MIDI Container

The container has the following internal approx. dimensions: L 4000 at the bottom/5250 at the tip x H 1700 x W 2000mm = volume 16m²

2 pcs. plastic side doors on each side measuring 550 x 550mm.

Appears to be factory new

In everyday speech, a tilting container and is preferably used for bulky, not too heavy, waste.

Emptying of the midi container is done on site, which means that the same container remains on the company's premises.

The containers are delivered with a top-hinged front door and side doors as well as plastic doors at the front primarily for industrial renovation

Appears to be factory new

Light gray paintwork
